EXPERIENCE

Junior Generative AI Engineer

Nov. 2025 – Present

Gruppo Maggioli

Santarcangelo di Romagna, Italy

- Develop production-grade AI services that automate document-intensive Public Administration workflows, from the core logic to the REST APIs that expose it.
- Design autonomous, goal-oriented Agentic AI systems: multi-agent orchestration, tool use and conversational interfaces with LangGraph, LangChain, Google ADK and MCP.
- Design retrieval-augmented pipelines over internal knowledge bases, and measure model output against annotated reference data so that changes are validated on results.
- Handle MLOps and deployment: containerized services and self-hosted LLM serving with GPU acceleration across GCP, released through CI/CD pipelines I design and maintain, and kept under watch for reliability and running cost.
- Build the full-stack layer around the models with Python backends and React/Next.js frontends, and contribute to the internal libraries the team's services share.

Generative AI Engineer Intern

Mar. 2025 – Oct. 2025

Gruppo Maggioli

Santarcangelo di Romagna, Italy

- Developed and integrated on-device AI for speech and text processing on mobile, working with dedicated speech models and Small Language Models under tight resource constraints.
- Integrated cloud AI services into existing products, weighing them against running models locally on cost, latency and data privacy.

External AI Consultant | stAI - Erasmus+ Project

Nov. 2024 – Sep. 2025

ScuolAttiva Onlus

Rome, Italy (Remote)

- Contributed to an international Erasmus+ project building AI-based tools to reduce student dropout rates.

Data Analyst | Research and Analysis Supervisor

Apr. 2022 – Nov. 2023

Sport Business Lab Consultancy

Rome, Italy (Remote)

- Led the research team and delivered data analysis projects in the sports and geospatial domains using advanced statistical models.

EDUCATION

University of Padua

Padua, Italy

Master's Degree in Data Science

Oct. 2023 – Dec. 2025

- **Core projects:** on-device CNN for audio command recognition (TensorFlow, Keras, PyTorch); fine-tuning and evaluation of BERT, RoBERTa-Large and GPT-2 for sequence classification; deep-learning tracking pipeline for tennis match analytics.

Alma Mater Studiorum - University of Bologna

Bologna, Italy

Bachelor's Degree in Statistics, Finance, and Insurance

Sep. 2019 – Oct. 2022

CERTIFICATIONS

Associate Cloud Engineer | *Google Cloud Certified*

Jul. 2026 – Jul. 2029

Generative AI Leader | *Google Cloud Certified*

Feb. 2026 – Feb. 2029

TECHNICAL SKILLS

AI & LLM Engineering: Generative AI, agentic systems (LangGraph, LangChain, Google ADK, MCP, A2A), multi-provider orchestration (Azure OpenAI, Vertex AI, OpenAI), RAG and hybrid retrieval, automated evaluation
Document AI: Azure Document Intelligence, Google Document AI, OCR, document parsing, generation and redaction
Backend & Data: Python, FastAPI, Celery, Pydantic, SQLAlchemy, PostgreSQL/pgvector, Redis, REST and streaming APIs
Frontend: TypeScript, React, Next.js, Tailwind CSS
Deployment & Tooling: GCP and Azure, model serving with GPU acceleration, Docker, Kubernetes (Helm charts, GitOps), GitLab CI/CD, OpenTelemetry, Git, Linux, Claude Code and AI-assisted development

LANGUAGES

Italian (Native) | English (B2)
